Couch White, LLP Announces 2022 Summer Associates

Firm has partnered with regional law schools to provide experience to second-year students

ALBANY, NY — Couch White, LLP today announced the 2022 Summer Associates Program cohort — Medea Asantiani, Christina Avery and Hilana Said. The three will assist Couch White's attorneys on legal matters across all practice areas.

The program's goal is to provide summer associates with a realistic view of Couch White and the legal industry at-large. The ten-week summer program will rotate the associates through each of the firm's practice areas, providing a hands-on experience conducting research, drafting correspondence, attending client meetings and court hearings, and business development and networking opportunities.

"On behalf of Couch White, I would like to welcome and congratulate Ms. Medea Asantiani, Ms. Christina Avery and Ms. Hilana Said. It is always one of our biggest joys to see our summer associates make meaningful contributions and then go on to do great things in the legal field. We hope to provide valuable experience and resources to this group so that they can continue this legacy," **said Leonard H. Singer, Partner at Couch White.**

Ms. Medea Asantiani joins Couch White as a second-year student at Albany Law School. She previously worked as a summer associate at John Sebastian Vaneria, Esq. and as an interpreter and legal assistant to immigrants in New York City. She is fluent in English, Russian and Georgian.

Ms. Christina Avery joins Couch White as a second-year student at the Elisabeth Haub School of Law at Pace University. She previously worked as an intern in the Southern District Court of New York and with the Legal Project, a not-for-profit organization that provides pro bono services to domestic violence victims in divorce matters and representation in Family Court.

Ms. Hilana Said joins Couch White as a second-year student at Albany Law School. Ms. Said previously served as a legal intern for Disability Rights of New York and is fluent in English, Arabic and Spanish.
